

Latent Features Legend

0: Local Consistency/Correctness Confirmation	1: Formula Recall and Specification	2: Problem Restatement and Extraction of Given Information
3: Expression of Uncertainty or Knowledge Gap	4: Generating and Evaluating Counterarguments or Alternative Legal Theories	5: Cognitive Pausing and Internal Deliberation Marker
6: Retrieval and Articulation of Prior Knowledge or Definitions	7: Problem Identification and Framing	8: Expanding the Scope of Consideration
9: Decomposition and Execution of Arithmetic Subcalculations	10: Calculation Execution and Intermediate Result Reporting	11: Synthesis and Final Answer Articulation
12: Planning and Sequencing Solution Steps	13: Error-Checking and Self-Monitoring Interjections	14: Intermediate Quantitative Calculation Step
15: Causal and Conditional Consequence Elaboration	16: Projecting Consequences and Implications
