Latent Features Legend

0: Problem Identification and Framing	1: Explicit Step-by-Step Arithmetic Calculation	2: Calculation and Substitution of Intermediate Results
3: Synthesis and Final Answer Selection	4: Problem Restatement and Extraction of Known/Given Information	5: Hypothetical Outcome Evaluation (Conditional Legal Reasoning)
6: Expression of Uncertainty or Doubt About a Just-Completed Inference	7: Expanding the Scope of Consideration	8: Formula Selection and Setup
9: Cognitive Pausing and Internal Problem Orientation	10: Consequence and Causal Outcome Generation
